

Dansk Kirurgisk  
Selskab

# Årsmødet 2024

d. 14. november - 15. november 2024

**Torsdag**

**d. 14. november**

**08.00 - 09.00** Registrering og kaffe

---

# Plenum

**09.00 - 10.00** Fælles åbning - formandens tale, status på selskabet, Dansk kirurgi 2024 Lippmann prisen ved Per Vadgaard Andersen

---

**10.00 - 11.00** YDKs evidensbingo og overrækkelse af uddannelsesprisen

---

**11.00 - 11.30** **Pause - Mød industrien og hør om de nyeste muligheder walk and talk med kolleger ved industrien - (Hans B. Rahr)**

---

## Plenum

---

**11.30 - 12.30**

Dansk Galdestensdatabase initiativ Ved  
Anders Christian Larsen Aalborg  
Universitetshospital

---

## Sal 2

---

HPB frie foredrag: Sessionsledere  
HC Pommergaard og Peter  
Nørgaard.

---

**11.30**

Accelerated vs Step-Up Endoscopic  
Treatment for Large Pancreatic Walled-Off  
Necrosis: Interim Analysis of a single-center  
randomized trial (ACCELERATE trial) Gitte  
Aaby Olsen

---

**11.42**

Crucial biomolecular mechanisms for  
preventing post-hepatectomy liver failure  
Andrea Lund

---

## Sal 3

---

Marco Mele  
Consultant in Breast Surgery  
Chairman of DBKS

---

**11.30 - 12.30**

Management of Axilla 2024: state of the art

Tove Tedskov: Moderator  
Prof: Andreas Karakatsanis . 45 min  
Associate Professor/ Reader in Breast  
Surgery,  
Uppsala University, Senior Consultant Breast  
Surgeon,  
Clinical Lead, Breast, Section for Breast and  
Endocrine Surgery Panel:  
Prof. Tove Tedskov  
Prof. Peer Christiansen

---

## Sal 4

---

Tværfaglig session: Differentierede  
indsatser – rette indsats til rette patient

Sessionsledere: Annette Kolding Rørvik  
og Ida Hovdenak

---

**11.30**

Sundhedskompetencer – hvordan kan vi  
organisatorisk og i klinikken styrke tilgangen  
til patienter og borgere med størst behov v.  
Rasmus Baagland, Chefkonsulent,  
Sundhedsstyrelsen

---

**12.30**

Tidlig opmærksomhed på patientens behov v.  
Ane Verholt, Overlæge, Ældresygdomme,  
Aarhus Universitetshospital

---

## Plenum (fortsat)

---

## Sal 2 (fortsat)

HPB frie foredrag: Sessionsledere  
HC Pommergaard og Peter  
Nørgaard.

---

11.54

Incremental Value of Routine Magnetic  
Resonance Imaging in Patients with  
Resectable Pancreatic Cancer: A  
Nationwide Prospective Clinical Study. Jacob  
Kirkegaard

12.06

Laparoscopic Ablation for Liver Malignancies  
- Initial Experience at a Scandinavian High  
Volume HPB Center J. Klubien

---

12.18

Piperacillin concentrations in bile and plasma  
in patients undergoing ERCP - Louise  
Pontoppidan

## Sal 3 (fortsat)

Marco Mele  
Consultant in Breast Surgery  
Chairman of DBKS

---

## Sal 4 (fortsat)

Tværfaglig session: Differentierede  
indsatser – rette indsats til rette  
patient

Sessionsledere: Annette Kolding  
Rørvik og Ida Hovdenak

---

---

12.30 - 13.30

Frokost

---

## Plenum

Fælles session Akut og colorectal - akut divertikulit. Sessionsledere: Kristian Aagaard + T. Bjørnsum-Meyer)

13.30 - 13.50

Gennemgang af seneste evidens, håndtering af Hinchey 3, Peter Dalsgaard, Viborg

13.50 - 14.00

Håndtering af "den akutte kolon" set med akut kirurgens øjne (AP Skovsen)

14.00 - 14.10

Håndtering af "den akutte kolon" set med kolorektal kirurgens øjne (MH Thomsen)

14.10 - 14.17

Colon kapsel endoskopi efter tilfælde med divertikulit (Camilla Thorndahl Nielsen)

14.25 - 14.30

ctDNA som screeningstool hos patienter med divertikulit (Malene Krabbe Østergaard)

14.25 - 14.30

Diskussion

## Sal 2

HPB - session:  
Sessionsledere: Allan Rasmussen og Hans-Christian Pommergaard

Langtidskomplikationer til immunosuppression efter levertransplantation

13.30 - 13.45

Introduktion ved Allan Rasmussen

13.45 - 14.00

Donorspecifikke antistoffer ved levertransplantation (DSA-studiet) ved Andreas Rostved

14.00 - 14.15

Medicinske komplikationer til immunosuppression (DACOLT-studiet) ved Moises Alberto Suarez Zdunek

14.15 14.30

De novo cancer efter levertransplantation ved Delal Akdag (15 min)

## Sal 3

Breast Surgery Session  
Tove Tedskov: Moderator  
Frie Foredrag

13.30 - 13.40

Routine Blood Tests Fail to Detect Metastatic Disease but Delay Treatment in Early Breast Cancer, A.T. Selesko<sup>1</sup>, M. Rindom<sup>2</sup>, O. Graumann<sup>3</sup>, M.D. Lautrup<sup>2</sup>

13.40 - 13.50

Topical Tranexamic acid in mastectomies on hematoma formation: A prospective cohort study: L. Tveskov<sup>1</sup>, A. Buheri<sup>1</sup>, C. Bille<sup>1</sup>

13.50 - 14.00

Trends in breast cancer among elderly women: development in estrogen and HER2 subtypes in the last ten years, F.K. Palshof<sup>1,2</sup>, L.S. Mørch<sup>2</sup>, M.-B. Raaby Jensen<sup>3</sup>, H.H. Storm<sup>2</sup>, N. Kroman<sup>1,2</sup>, T. Holst Filtenborg Tvedskov<sup>1</sup>

14.10 - 14.40

Evaluating the prognostic role of the PAM50 signature and selected immune-related signatures for recurrence in patients with T1abN0 breast cancer, Christina M. S. Hassinga, Tove Holst Filtenborg Tvedskova, Niels Kromana,b, Ann Søegaard Knoopc, Anne-Vibeke Lænkholm

Der er 10 min til spørgsmål i alt.

## Sal 4

Firmasession: Medtronic.  
Robotoperationer ved eksteren foredragsholder

13.30 - 14.30

Digital operations: In the era of AI v/Enda Mulvany  
Sr Director of Business Development  
Digital Technologies  
Medtronic

Overvejelser ved robotopstart v/Rikke Tinggaard-Henriksen  
Senior Registrar, speciallæge i kirurgi,  
Hvidovre Hospital

## Plenum

Herniesession 1: Robotterne kommer!  
Moderator Thorbjørn Sommer, Frederik Helgstrand:

---

14.30 - 15.00

Herniekirurgi på robot Pro et con.

---

15.00 - 14.40

Hvorfor robot til hernier (Malene Busse)

---

14.40 - 14.50

Hvorfor ikke robot til hernier (Pernille Diasso)

---

14.50 - 15.00

Efterfølgende diskussion.

---

15.00 - 15.10

Har vi råd til robothernier ? (Mette Willaume)

---

15.10 - 15.20

Tips og tricks til at starte robotkirurgi (Martin Kobborg)

## Sal 2

Frie foredrag Colorectal 5 stk a 9min + 3min diskussion (Sessionsleder: Susanne Haas, Andreas Nordholm-Carstensen, Thomas Bjørnsum-Meyer )

---

14.30 - 14.40

Lone Grau: Dorsal genital nerve stimulation in patients with faecal incontinence/urgency - a feasibility study with the novel Ucon neurostimulator

---

14.40 - 14.50

Mira Mekhael: Treatment of Low Anterior Resection Syndrome in Specialized Multidisciplinary Late Sequelae Clinics: a Prospective Cohort Study

---

14.50 - 15.00

Asger Eller: Rethinking Diminutive Polyp Management: A Comprehensive Study from Denmark's National Pathology Database.

---

15.00 - 15.10

Ilze Ose, AI-Driven Risk Assessment and Personalized Treatment Pathways in Perioperative Care

---

15.10 - 15.20

Henry Smith: The Association of Mismatch Repair Status with Microscopically Positive (R1) Margins in Stage III Colorectal Cancer: A Retrospective Cohort Study

## Sal 3

ECV sessionen  
Sessionsledere: Palle Bech Miliaum og Sarunas Dikinis:

---

14.45 - 15.00

Melina Svraka Hansen "Gastric peroral endoscopic myotomy is effective in treatment of diabetic gastroparesis; results from a randomized double-blinded sham-controlled trial"

---

15.00 - 15.15

Aide Schucany "The OR staff's perception of disruptions in workflow during robotic-assisted surgery – A Qualitative study".

---

15.15 - 15.30

Aide Schucany "Textbook outcomes for patients with a lived experience of cancer surgery in the upper GI tract – A Qualitative Study".

---

## Sal 4

Generalforsamling Dansk  
Brystkirurgisk Selskab ( Henrik Flyger )

---

## 15.30 - 16.00 Mød industrien og hør om de nyeste muligheder - Frank Jensen

### Plenum

Herniesession 2/Kirurgisk uddannelse i robot:  
Moderator Frederik Helgstrand, Pernille Diasso:

16.00 - 16.15

Certificering af kirurger til robotkirurgi ? ( Pernille Diasso ).

16.15 - 16.30

Hvordan træner man en robotkirurg ? ( Peter Hertz )

16.30 - 16.45

Hvad ønsker YDK? ( Amanda Brunchmann ).

16.45 - 17.00

Paneldiskussion

16.45 - 17.00

Paneldiskussion

### Sal 3

ECV frie foredrag: Sessionsledere Palle Bech Milliam og Sarunas Dikinis

16.00 - 16.15

Julie Lykke Harbjerg "Randomised Phase III Trial of First Line Intraperitoneal Paclitaxel and Systemic Therapy versus Systemic Therapy Alone in Gastric Cancer Patients with Peritoneal Metastases. IPa-Gastric Trial"

16.15 - 16.30

Julie Lykke Harbjerg "Laparoscopic Heated Intraperitoneal Chemotherapy in locally advanced Gastric Cancer. A Randomized Controlled Feasibility Study investigating early Prophylactic Laparoscopic Hyperthermic Intraperitoneal Chemotherapy. The ProPEC-I trial."

16.30 - 16.45

Trine Holtz "Patterns of complications after minimally invasive oesophagectomy compared to open surgery – a retrospective single centre cohort study"

16.45 - 17.00

Oliver Nørholm Kempf "Stage-dependent survival in Esophageal Cancer: A Danish nationwide cohort study"

### Sal 4

Tværfaglig session:  
Sygeplejesensitive indikatorer  
Sessionsledere: Ida Hovdenak og Annette Kolding Rørvik

16.00 - 16.25

Indikatorer for kirurgisk sygepleje i relation til Enhanced Recovery After Surgery (ERAS)  
v. Henriette Vind Thaysen, PhD og Klinisk Sygeplejespecialist, Mave- og Tarmkirurgi Aarhus Universitetshospital og Sara Ravn Francis, PhD og Klinisk Sygeplejespecialist, Kvindesygdomme og Fødsler, Aarhus Universitetshospital

16.25 - 16.50

Erfaringer med metode til at udvikle og fastsætte indikatorer indenfor nefrologisk sygepleje v. Jeanette FINDERUP, PhD og lektor, Nyresygdomme, Aarhus Universitetshospital

16.50 - 17.00

Fælles opsamling og drøftelse med alle oplægsholdere.

## Sal 2

Postersession med 2 minutters oplæg og 1 minut til spørgsmål. Chairpersoner: Lene Spanager, Louise Pontoppidan og Lasse Bugge, DKS' uddannelsesudvalg

---

16.00 - 16.03

The impact of tumor mutations and tumor-infiltrating lymphocytes on prognosis in patients with pMMR localized colorectal cancer – a systematic review and meta-analysis Amalise T. Nielsen

---

16.03 - 16.06

Title: Burden of disease in Pilonidal Sinus: a study comparing the specialist's versus patient's perspective. Lau Lind Nielsen

---

16.06 - 16.09

A systematic review on surgical treatment of recurrent rectal prolapse Andreaa Bach-Nielsen

---

16.09 - 16.12

AI-Driven Personalized Perioperative Management in Colorectal Cancer: A randomized Controlled Clinical Trial - The AIDPRO-CRC trial: a study protocol Magnus N. Jung

---

16.12 - 16.15

Circulating Tumor DNA and Risk of Recurrence in Patients with Asymptomatic versus Symptomatic Colorectal Cancer Mai-Britt Worm Ørntoft

---

16.12 - 16.15

Circulating Tumor DNA and Risk of Recurrence in Patients with Asymptomatic versus Symptomatic Colorectal Cancer Mai-Britt Worm Ørntoft

---

16.15 - 16.18

Development and validation of a clinical prediction model for one-year mortality following elective colorectal cancer surgery Mikael Gögenur

---

16.18 - 16.21

Preoperative ctDNA, the tumor microenvironment, and the risk of recurrence in non-metastatic colorectal cancer Mikael Gögenur

---

16.21 - 16.24

Safety and efficacy of irreversible electroporation and anti-PD1 treatment for patients with metastatic gastrointestinal cancer Mikael Gögenur

---

16.24 - 16.27

A map of medical complications after elective colorectal cancer surgery in a modern setting – Before and after implementing AI-enhanced risk stratification Christina Alexandersen

## Sal 2 (fortsat)

Postersession med 2 minutters oplæg og 1 minut til spørgsmål. Chairpersoner: Lene Spanager, Louise Pontoppidan og Lasse Bugge, DKS' uddannelsesudvalg

---

16.27 - 16.29

Incidence of recurrence in pT1 rectum cancer following local excision or TME: a nationwide registry-based cohort study Henry Schimidt

---

16.29 - 16.32

The Kinetics of Cytokine and Matrix-metalloproteinase Levels in Peritoneal Fluid: Understanding Anastomotic Leak Development in Rectal Cancer Patients via Intraperitoneal Microdialysis (KRISIS)  
Sadar Khalaf

---

16.32 - 16.35

Temporal Trends in Incidence and Mortality of Colorectal Cancer in Denmark from 2007 to 2022 Ida Ravnsbæk Johansen

---

16.35 - 16.38

Validity of the fecal microbiomes from colorectal cancer screening samples Anders Bech Jørgensen

---

16.38 - 16.41

Association Between a 1-Year Mortality Prediction Model and Return to Intended Oncological Treatment in Colorectal Cancer Patients Enise Gögenur

---

16.44 - 16.47

Days Alive and Out of Hospital at 90 days as a composite outcome measure in patients undergoing elective surgery for colorectal cancer in Denmark – a nationwide, observational study Karoline Bendix Bräuner

---

16.47 - 16.50

Preliminary Results on Risk of Reoperation After Incision for Pilonidal Sinus Disease from 2010-2021 - A Danish Population-Based Cohort Study Ida Kaad Faurischou

---

16.50 - 16.53

Can CRP predict anastomotic leakage after resection for colon cancer already 2 days post-surgery? Salja Sinimäki

---

16.53 - 16.56

Quality of life after laparoscopic peritoneal lavage for Hinchey III diverticulitis – preliminary results of a regional cross-sectional study Josephine Secher

---

## Plenum

Er Åben herniekirurgi en uddøende race?

Moderator: Nina Wensel Nellie Zienter.

---

17.00-17.15

Internationale guidelines Alle patienter tilbydes MIS lyskebrok kirurgi ( Kristoffer Andresen ).

---

17.15-17.30

Hvad så med Lichtenstein ? Hvem Hvad Hvornår ( Kristoffer Andresen )

---

17.30-17.45

Hvad skal de unge kirurger så lære ? ( Nina Wensel )

---

17.45-18.00

Diskussion i plenum

## Sal 2 (fortsat)

Postersession med 2 minutters oplæg og 1 minut til spørgsmål. Chairpersoner: Lene Spanager, Louise Pontoppidan og Lasse Bugge, DKS' uddannelsesudvalg

---

17.03 - 17.06

Rectal resection alters anal canal slow-wave activity: new insights into the pathogenesis of low anterior resection syndrome Mira Mekhael

---

17.06 - 17.09

Safety and efficacy of irreversible electroporation and anti-PD1 treatment for patients with metastatic gastrointestinal cancer Tobias Freyberg Justesen

---

17.09 - 17.12

Regional differences in radiological surveillance for non-metastatic colorectal cancer patients in Denmark – nationwide cohort study 2010-2019 Jesper Nors

---

17.12 - 17.15

The OBANORES study: Obsidian in anastomotic healing after rectal cancer resection: A prospective clinical feasibility study Thomas Valsamidis

## Sal 3

Dr. Ivo Broeders

---

17.00 - 18.00

"Robot assisted hiatal hernia surgery a 24 years personal journey"

## Sal 2 (fortsat)

Postersession med 2 minutters oplæg og 1 minut til spørgsmål. Chairpersoner: Lene Spanager, Louise Pontoppidan og Lasse Bugge, DKS' uddannelsesudvalg

---

17.18 - 17.21

Comprehensive Geriatric Assessment for high-risk colorectal cancer patients scheduled for surgery Angelina Righult

---

17.21 - 17.24

Time of recurrence following cytoreductive surgery and hyperthermic intraperitoneal chemotherapy for peritoneal metastases of colorectal origin: Risk factors and prognosis Mette Fugleberg Nielsen

---

17.24 - 17.27

Four-year Recurrence and Postoperative Complications after Laparoscopic Complete Mesocolic Excision— a Population-Based Study Tora Haug

---

17.27 - 17.30

Prognosis after emergency surgery for acute complicated diverticulitis Tanja Laursen

---

17.30 - 17.33

Kolorektalcancer i Grønland- en opgørelse fra 2015-2020 Astrid Buch

---

17.33 - 17.36

Safety and Feasibility of Same-Day Discharge After Loop Ileostomy Reversal? A Retrospective Analysis Mette Ladegaard Marcussen

---

17.36 - 17.39

Preoperative factors predicting outcomes in patients with suspected perihilar cholangiocarcinoma referred for curative resection— a single-center 10-year experience Hasan A. Al-Saffar

---

17.39 - 17.42

Postoperative Factors Predicting Outcomes in Patients with Perihilar Cholangiocarcinoma Undergoing Curative Resection— A 10-year Single-Center Experience Hasan A. Al-Saffar

---

17.42 - 17.45

Management of Traumatic Splenic Injuries at Rigshospitalet: A Retrospective Study Amanda Olsen

---

17.45 - 17.48

Radiological Diagnosis of Acute Cholecystitis in Patients Admitted to a Danish Regional Hospital Daniel Bornemann

---

**18.00 - 18.30**      **Pause**

---

## Plenum

Konsekvenser af det politiske udspil om det fremtidige sundhedsvæsen. Moderator: Cheflæge Jens Hillingsø, Rigshospitalet

---

**18.30. – 18.40**

Moderator byder velkommen, sætter rammen og præsenterer panelets debattører.

---

**18.40**

Oplæg v. Peter Bjerre Mortensen, Professor ved Institut for Statskundskab, Aarhus Universitet

---

**18.45**

Oplæg v. Lisbeth Lagoni, sygeplejefaglig direktør, Aalborg Universitetshospital

---

**18.50**

Oplæg v. Michael Braüner Schmidt, lægefaglig direktør Aarhus Universitetshospital

---

**18.55**

Oplæg v. Thomas Krarup, Direktør for Sundhed, kultur og omsorg i Randers Kommune

---

**19.00**

Oplæg v. Henrik Idriss Kise . Formand PLO Region Midt

---

**19.05**

Oplæg v. Per Vadgaard Andersen, Formand DKS

---

**19.10 - 19.45**

Debat med spørgsmål fra moderator og publikum.

**Fredag**

**d. 15. november**

**07.30 - 08.00**Registrering og kaffe

---

## Plenum

---

**9.00 - 10.00**

Opdatering om cytoreduktiv kirurgi: Organisering nationalt, indikationer og procedure

- 1) Kort om det organisatoriske set-up ved CRS kirurgi (ved Jakob Lykke, Herlev)
  - 2) Kort om det onkologiske aspekt ved CRS kirurgi (ved Anders Boysen, AUH)
  - 3) Oplæg om CRS kirurgien (ved Anne Bodilsen, AUH)
  - 4) Spørgsmål
- 

**10.00 - 10.30****Pause - Mød industrien og hør om de nyeste muligheder Hans-Christian Pommergaard**

---

## Sal 3

**Børnekirurgi frie foredrag 5 stk a 9min + 3min diskussion (Mark Bremholm Ellebæk )**

---

**9.00 - 10.00**

Gregers Gaardskær Boel

"Postoperative komplikationer til kirurgi for kongenit hyperinsulinisme ved børn: En 10 års opgørelse"

Nicola Groes Clausen

"Pain and complications related to Laparoscopic versus Open surgery for Hypertrophic Pyloric Stenosis: A retrospective study"

Jesper Brandt Pedersen

"An interventional study of anti-microfibrillar-associated protein's (anti-mfap4's) possible effects in inducing post surgery intestinal anastomotic tensile strength"

Stine Marie Odby

"Anti-MFAP4 Antibody - A novel therapy to prevent anastomotic stricture after surgery for esophageal atresia: Animal experimental study"

Nikolai Juul

"Lyskebrokoperation hos børn og fertilitet i voksenlivet - tværsnitstudie på danske vernepligtige mænd"

Jonas Baastrup

"Alternative management of omphalocele and gastroscisis"

---

## Plenum

Nordisk Kirurgisk Forening: Oplæg og paneldebat

---

10.30 - 12.30

Hvad er fremtiden for den subspecialiserede kirurg i norden?

Moderater: Daniel Kjær, formand for Nordisk Kirurgisk Forening

Lars Martin Bjerke (Norsk repræsentant) "Er det muligt at fremme generalisten i subspecialiseringens tidsalder?"

Martin Almquist (Svensk repræsentant) "Variation i behandlingskvalitet – hvordan kan den afhjælpes?"

Marianne Kristensen (Dansk repræsentant) "Hvorfor skal yngre kirurger uddannes til generelle kirurger?"

Oplæg ved Jonas Egebart, direktør for den danske Sundhedsstyrelsen - online

---

## Sal 2

Frie foredrag Akut og Hernie 5 stk a 9min + 3min diskussion (AP Skovsen og Thomas Cotzand)

---

10.30 - 10.15

Evaluation of treatment for acute cholecystitis in 2022 - A retrospective study  
Lena Hansen

---

10.15 - 10.30

Cost Disparity Between Open and Robotic-Assisted Ventral Hernia Repair: Preliminary Data from a Randomized Controlled Trial  
Kristian Als Nielsen

---

10.30 - 10.45

Delayed First-Admission Cholecystectomy Increases Complication Risk in Acute Cholecystitis Patients  
Liv Erritzøe

---

10.45 - 11.00

Reduced risk of recurrence following robotic-assisted inguinal hernia repair compared to conventional TAPP: A cohort study of 395 cases  
Alex Valsamidis

---

11.00 - 11.15

Emergency Laparoscopy in Acute Abdominal Surgery: A Review from A Danish Single-Center  
Marie Emilje Møller

## Sal 3

Tværfaglig session:  
Differentierede indsatser – rette indsats til rette patient

---

Sessionsledere: Marianne Krogsgaard og Margrethe Lomholt Sørensen

---

10.30 - 10.50

Hvordan differentierer AIDSurg mellem patientgrupper? Og hvilken betydning har det for den præ- og postoperative indsats? v. Philip Walentin Steenfos, Cand.Scient., Sports & Health Science, Center for Surgical Science

---

10.50 - 11.10

Patientstyret opfølgning efter rektumcancer - hvad er evidensen v. Ida Hovdenak og Henriette Vind Thaysen, PhD og Klinisk Sygeplejespecialist, Mave- og Tarmkirurgi, Aarhus Universitetshospital

---

11.10 - 11.30

Beslutningsstøtteværktøj – et Quick fix til den tilfredse patient v. Tobias Andersen Stadil, Overlæge, Kirurgi, Hospitalsenhed Midt, Viborg

## Sal 4

Endoskopisession:

Moderatorer: John Gasdal Karstensen og Signe Bremholm Ellebæk

---

10.30

Alanna Ebigbo 20+10 EMR or ESD? - Conquering challenges, embracing success.

---

11.30

Stig Laursen 20 +10 Endoskopi ved ulcusblødning – hæmostase der holder!

---

## Sal 2 (fortsat)

DKO speaker  
Dr. Alanna Ebigbo, Germany

---

11.30 - 12.30

Detection and Characterization of Early Barrett's Neoplasia: Is Artificial Intelligence the Future?

## Sal 3 (fortsat)

Tværfaglig session: Patientsikkerhed og tværfaglig kompetenceudvikling  
Sessionsledere: Margrethe Lomholt Sørensen og Marianne Krogsgaard

---

11.30 - 12.00

Relationel koordinering – en metode til at sikre samarbejde og kommunikation omkring patienten v. Birgitte Tørring, PhD, sygeplejerske og udviklingskonsulent, University College Nord

---

12.00 - 12.30

Erfaringer med simulationstræning med fokus på tværfagligt samarbejde og patientsikkerhed v. Emma Possfelt-Møller, Afdelingslæge, Afdeling for transplantation og sygdomme i fordøjelsessystemet, Rigshospitalet

## Sal 4 (fortsat)

Oplæg og diskussion ved HU-læge Lasse Jan Pedersen og UAO Marlene Julia Sørensen  
Moderator: Lasse Bugge, DKS' uddannelsesudvalg

---

11.30 - 12.30

Investering i uddannelse - SAL 4  
På Danmarks bedste uddannelsesafdeling (kåret af inspektorordningen 2024) tages uddannelseskulturen ved hornene. Ledelsesopbakning, tydelighed i uddannelsesopgaven, forventningsafstemning og engagement er byggesten den kirurgiske uddannelse i afdelingen. Det rygtes og senest var der 45 ansøgere til 2 introduktionsstillinger.  
Kom og hør hvordan det kan lade sig gøre, også når uddannelsesforløb ikke forløber efter planen og der skal gøres en ekstra indsats.

---

---

**12.30 - 13.30**      **Frokost**

---

**13.00 - 13.50**      Generalforsamling i DKS (Plenum)

---

**13.50 - 14.00**      DKO legatuddeling og kort opsummering af DKO's aktiviteter (Plenum)

---

## Plenum

---

14.00

Køster-speaker kolorektalområdet: Udviklingen i rektumcancer i Norden. Tanker om fremtiden – beyond-TME. Sessionsleder: Andreas Nordholm-Carstensen og Steffen Briesling

Per J. Nilsson M.D., Ph.D.

Adj. Lektor / Senior Lecturer

Docent, Överläkare / Associate Professor of Surgery

Kolorektalsektionen / Division of Coloproctology

ME Bäckencancer / Dept. of Pelvic Cancer

Eugeniavägen 6, Hotellet pl. 2

Karolinska Universitetssjukhuset / Karolinska University Hospital

SE 171 76 Stockholm

Sweden

---

15.00 - 15.30

Dansk Kirurgi 2030 - Robotter - hvor meget og hvor

MEDTRONIC: Pierre Gherardi, Vice Precident, Commercial Strategy, Europe

Intuitive: Clinical Sales Director Thomas Karup Falkentoft

Mölnlycke: Michael Steen Amundsen

Vingmed: Yvonne Meincke

---

15.30 - 17.00

PhD cup (bestyrelsen)

15.30-15.45: PROphylactic closed incision Negative-PRESSure treatment versus standard wound dressing in open incisional hernia repair: a multicenter randomized trial (the PROGRESS study) - Mads Marcham

15.45-16.00: Colonic resection and stoma formation due to chronic diverticular disease - incidence and predictors - Helene Dalby

16.00-16.15: Targeted Axillary Dissection after Neoadjuvant Treatment for Breast Cancer - Frederikke Munck

16.15-16.30: Anvendelsen af robotassisteret teknologi ved colon cancer kirurgi Pedja Cuk

16.30 - 16.45: Myocardial injury after non-cardiac surgery in patients undergoing acute abdominal surgery - Charlotte Kanstrup
